

Coronation Gardens Improvements Phase 1 Consultation

Wandsworth Council wants your help to decide on the final design for the refurbishment of Coronation Gardens play area. £143,000 has been granted for improvements to this play area, with a further £30,000 given towards biodiversity improvements in and around the space.

The aim of this initial consultation is to help us understand what you think of Coronation Gardens, if and how you currently use this green space and how you think it could be improved. We are interested in hearing from regular users of the space, people who live in the local area and people who visit the gardens for any other reasons.

Coronation Gardens Improvements Phase 1 Consultation

What happens next?

Once this phase of consultation has concluded, all of the feedback will be carefully considered to decide on the final design for a refurbished playground. Whilst every attempt will be made to construct the final design to plan, certain elements may have to be altered during the implementation stage due to unforeseen technical or logistical issues.

Have your say

The consultation is now live. You can access the online survey at:
